"We Make House Calls"

December 15, 2010

1. **Square Up:** <https://squareup.com/> - be able to process credit cards from a smart phone such as an Android phone. Free gizmo to read credit cards. No monthly fee. Just 2.75% plus 15 cents using card reader or 3.5% plus 15 cents for direct entry on phone. Set up account online direct to your bank account.
2. **Always Sync:** An easy way to sync to your flash drive or small amount of data to your external hard drive. <http://allwaysync.com/> - Free program now with scheduling for auto backup and syncing. Can do multiple backup types.
2. **Photoshop Alternative:** Great image editing program comparable to Photoshop = Paint.net <http://www.getpaint.net/> - a free download, user forums, tutorial, updated regularly. My son Jake can give you lessons!
3. **Print the Screen:** Capture what's on your screen and save to a folder: Gadwin PrintScreen = <http://www.gadwin.com/printscreens/>. A little program that sits in memory all the time. Press the Print Screen key and the option window appears. Make your changes and save the file. Simple and handy.
4. **Post it notes** = A great little program that stays resident and is always handy – StickeyPad = <http://www.greeneclipse.com/stickypad.html>. Create notes that stay on screen, can change colors, fonts, size, email print and save the notes too. A VERY useful program that is free.
5. **IEWindow Maximizer** = Does it drive you crazy that Internet Explorer doesn't open to a full screen? This little handy and free program fixes that: <http://www.jiisoft.com/iemaximizer/Default.aspx>
