

Directions to install the new **FREE** AVG Anti-Virus Version 8

1. Go to: http://www.grisoft.cz/filedir/inst/avg_free_stf_en_8_100a1295.exe
2. Download and save the file to the desktop
3. Double click the file once the download is complete
4. Follow the onscreen directions to install the new version.
5. If asked to uninstall the older version, have it do so, you'll probably have to reboot when done
6. Once installed, run the update

You're all set and the new version is installed.

If the above link does not work, please use this alternate link:
